

## OPPORTUNITY: GEOTECHNICAL ENGINEER

---

Active Earth Engineering Ltd. (Active Earth) is a dynamic engineering and environmental consulting firm that has completed over 2,500 projects across southwestern BC. We are currently seeking a [Geotechnical Engineer](#) with [leadership skills and aspirations](#), for our Metro Vancouver or Greater Victoria office. The successful candidate will be encouraged to spearhead an expansion of our geotechnical services and will be offered a [share of profits](#) from the division.

We offer [very competitive salaries](#), an [extended medical and dental benefits plan](#), an industry-leading [profit-sharing program](#), and an [energetic and truly collaborative working environment](#).

The successful candidate will have:

- A degree in geotechnical, geological, or mining engineering (or equivalent).
- Registration as a P.Eng. in BC.
- 8 or more years of relevant industry or consulting experience in geotechnical engineering.
- Continuous and varied work experience on a wide range of geotechnical engineering projects in the Lower Mainland and/or on Vancouver Island.
- Proven ability to manage projects and communicate clearly and effectively.
- Leadership skills, and a desire for a team management role.
- Demonstrated experience in:
  - Planning and undertaking geotechnical site investigations
  - Foundation design for small and large structures
  - Deep foundations and shoring design
  - Groundwater cut-off wall design
  - Pile design and retaining wall design
  - Slope stability assessments

Active Earth specializes in environmental investigation and remediation, physical hydrogeology, and geotechnical engineering. Our clients include contractors, developers, government agencies, property owners, architects and others. Our company was created in 2007 by a small group of like-minded engineers and geoscientists who wanted to build a unique consulting firm. We provide top-tier services at competitive prices. We genuinely enjoy working together and love what we do. We have grown into a team of over 20, including hydrogeologists, engineers, project scientists, technicians and professional support staff.

Interested applicants should submit a resume and cover letter to [employment@activeearth.ca](mailto:employment@activeearth.ca). Any questions may be directed to Mr. Matt Pye at [matt.pye@activeearth.ca](mailto:matt.pye@activeearth.ca) or 250-686-9850.
